Advanced Metering Infrastructure Opt-Out Cost Adjustment Provision Application Form

Per the Peabody Municipal Light Plant ("PMLP") Advanced Metering Infrastructure Opt-Out Cost Adjustment Provision (M.D.P.U #183), customers may have their PMLP Advanced Metering Infrastructure ("AMI") electric meter replaced with a non-AMI electric meter that does not utilize a radio frequency transmitter.

By signing below, you ("Customer") agree to the fees listed in PMLP's Advanced Metering Infrastructure Opt-Out Cost Adjustment Provision (M.D.P.U #183) as amended from time to time.

Effective December 1, 2016, the fees are as follows:

Service	Fee
Removal of the AMI meter and Installation of Non-AMI meter	\$40.00
Monthly Meter Reading	\$23.00
Re-Installation of AMI Meter	\$40.00

The one-time fee (if applicable) will appear on your first bill after the non-AMI meter has been installed at your premises. The monthly manual meter reading fee will begin on the same bill.

If you later choose to have an AMI meter reinstalled, a one-time reinstallation fee will apply that is equal to the fee listed above for the AMI meter's removal. Then, starting on the first bill after all non-AMI meters have been replaced with AMI meters, the monthly fee will be waived.
