

## **ADDENDUM NO. 1**

**(4/10/2018)**

The purpose of this addendum is to clarify a follow up question that surfaced after the release of the “Ipswich River Substation – Site Construction” bid documents, released on 3/29/18.

1. There is now a new item #8 posted on the PMLP website along with this addendum, a ZIP file containing Environmental Permitting documentation. Within this file there are three files that should be made part of the bid package.
  - MA DEP Water Quality Certification, dated October 30, 2017
  - City of Peabody Con-Com Order of Conditions, dated August 17, 2017
  - Ipswich River Substation, Stormwater Management Report, dated July 13, 2017
  
2. There is now a new item #9 posted on the PMLP website along with this addendum, a ZIP file containing three sets of soil borings that have been completed in the past on the new Ipswich River substation site and along the bike path. These files should be made part of the bid package.
